DETAILED ACTION

This office action is a response to the request for reconsideration filed on 4/26/2006.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as bonding a slider section and an element section produced separately. The closest reference of Otsuka teaches a process of making a slider having a slider section and an element section. However, Otsuka fails to teach to produce the slider section and the element section separately and then to bond together. Therefore, it would not be obvious to modify Otsuka by producing the slider section and the element section separately, since doing so would destroy the structure of slider of Otsuka.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 14-34 are allowed.
